Length of Supports

Assessments: 1 - 4 hours (depending on clinical complexity)

Assessments may take up to four hours to complete in full, depending on complexity of support needs. Assessments may consist of up to four assessment sessions, or a mixture of observations, interviews and liaison with multi-disciplinary team.

Therapy: Typically 1 hour sessions

A therapy plan and comprehensive quote for ongoing supports will be provided following the completion of an assessment.

Reporting: Reports are available by request or as recommended by a Speech Pathologist for a relevant clinical function (e.g. to assist referral to relevant specialists).

- Assessment outcome reports typically take two hours to complete (\$193.99 per hour).
- Referral letter/reports typically take one hour (\$193.99 per hour) to complete.
- Mealtime management plans typically take one hour (\$193.99 per hour) to complete, depending on clinical and support need complexity.
